

Ranking of Movies on BookMyShow Home Page

Modified on: Sat, 21 Mar, 2020 at 8:41 PM

How are the Top Movies on the Home Page of BookMyShow ranked? How can a film with lower heart rating be ranked higher than one with a high heart rating?

This ranking is calculated by the system automatically and is based on ticket sales for the previous day.

Movie in the Now Showing/Coming Soon on Home Page

Modified on: Sat, 21 Mar, 2020 at 8:40 PM

I want my movie to be first in the Now Showing/Coming Soon section on your home page. Can you do this?

Movies in the Now Showing section are sorted basis: language of region, then date of release and further sorted according to alphabetical order. Movies in the Coming Soon section are displayed basis Fixed release date and Tentative release date. Movies having Fixed release dates are shown first and movies having Tentative release dates are shown later down the list. Further, movies having Fixed release date are sorted based on date, and if they have the same release date then they are sorted based on Language Sequence. This order cannot be altered manually.

Prioritizing of Trailers

Modified on: Sat, 21 Mar, 2020 at 8:39 PM

How do you decide which trailers show up first on the Trailers page? Can my trailer be moved to the first row?

The newest (most recently released) trailers show up first, as freshness of trailer is the default setting for this page. You can alter the setting to reflect the most popular trailers first. Popularity is gauged basis the total number of votes received on the page for 'Will Watch', 'Won't Watch' and 'Maybe'.

Movie rating dropped

Modified on: Sat, 21 Mar, 2020 at 8:38 PM

The rating on my film has dropped suddenly from 84% to 70%. Something must be wrong. Is there a fault in your system?

It's not uncommon for initial heart ratings for a film to be high, and then go down after it has been in theaters for a while. Films with a relatively low total number of ratings (less than a hundred) are particularly susceptible to dramatic changes in the weighted heart rating. As it has only a few ratings, it doesn't take a lot for the overall rating to change.

Delete a review/rating

Modified on: Sat, 21 Mar, 2020 at 8:37 PM

I know for a fact that the people who rated a particular film cannot possibly have seen it! They have a grudge against the filmmakers. Will you delete/disregard their rating/review?

Our registered users can rate or review any film that has released in India. We are aware that there may be people who are rating for the sole purpose of trying to lower the overall rating for a film (this works both ways -- there are just as many people who try to inflate a rating). However, the overall rating calculation is overwhelmingly based in favor of people who have purchased tickets, and the final rating reflects that.

Changing the ratings as per movie performance

Modified on: Sat, 21 Mar, 2020 at 8:36 PM

This is unfair! My film has received awards, great reviews, commendations and deserves a much higher heart rating. Can you change it to reflect this?

We didn't mean to let you down.

Our heart ratings are largely a representation of what our users think of a film.

We do not delete or alter individual ratings, and we do not adjust the results of our automated weighted rating for any individual movie.

If the rating is lower than expected, it simply means that users have rated the film much lower than the critics who have commended it.

Honestly, we cannot delete the rating once marked for any movie.

Publication in reviews/ratings

Modified on: Sat, 21 Mar, 2020 at 8:35 PM

Why don't you include my publication in your ratings/reviews?

Your publication may be considered for addition to our Critics' Reviews section if it meets our requirements: credibility of the publication, availability of star rating, and is well-written.

Replacing Critics Review

Modified on: Sat, 21 Mar, 2020 at 8:32 PM

Can you replace a Critic's Review with low rating with a Critic's Review with higher rating for my movie? It is affecting sales of the movie tickets.

As per company policy, we do not take down Critics' Reviews from the Movie Page. Our rating formula in any case gives minimal weightage to critics' ratings. We have found that individual reviews do not affect overall ticket sales as long as feedback from the users is favorable.

Critics

Modified on: Sat, 21 Mar, 2020 at 8:31 PM

On what basis do you choose the Critics' Reviews on the movie page?

Critics' Reviews are chosen if they meet the following criteria: credibility of publication, availability of star rating, and if they are well-written.

Calculating the movie rating

Modified on: Sat, 21 Mar, 2020 at 8:30 PM

But I made my own calculations and the rating for movie should be 7.7, not 4.3! You've made a mistake.

Each category - ticket buyers, non-transacting users and critic reviews - is given a weight-age, and the average rating is calculated on the basis of this. The algorithm is designed to reduce the possibility of users trying to beat the system by adding fake positive or negative reviews.

Calculating the heart rating

Modified on: Sat, 21 Mar, 2020 at 8:29 PM

How do you calculate the heart rating displayed on a film's page?

A film needs to have a minimum threshold of votes for the heart rating to be displayed. We also do not display the heart rating for a film before it has actually been screened/released.

The rating algorithm is a complex formula that calculates the weighted average of ratings from ticket buyers, non-transacting users and critic reviews. The formula is designed such that ratings from ticket buyers have the maximum influence on the overall heart rating of the film. The algorithm is also constantly updated to detect spam patterns and identify fake ratings.

Positive reviews for low rated movies

Modified on: Sat, 21 Mar, 2020 at 8:28 PM

The user rating for this film is poor, but the reviews are all positive? Are they fake?

Not all users who rate a film submit a review. If you find only positive reviews for a film, it is likely that those who have rated the film poorly have not reviewed it.

Positive reviews

Modified on: Sat, 21 Mar, 2020 at 7:32 PM

There are only positive reviews about the film. How do I know that they are not fake or that BMS hasn't been paid to publish these?

All reviews, positive or negative, are approved by the system as long as they meet the guidelines mentioned above. If only positive reviews are reflecting for a movie, it is because we have only received positive user reviews for that film.

Posting reviews for pre released movies

Modified on: Sat, 21 Mar, 2020 at 7:26 PM

Can I post a review when the movie is not released in theaters, but I have seen it on the Internet?

If a film has not released in India, you cannot rate or review the film on BookMyShow. You can only review a film if it has released in India.

Posting your reviews anonymously

Modified on: Sat, 21 Mar, 2020 at 7:25 PM

Can I post my reviews anonymously?

Unfortunately, you must register on our portal to be able to post a review.

See my user review

Modified on: Sat, 21 Mar, 2020 at 8:30 PM

How do I see my user review? Can I edit or delete a review if I change my mind?

You can scroll through the user reviews section to read your review and the opinions of other users. Once a review or rating is submitted, it cannot be deleted.

Review not reflecting

Modified on: Sat, 21 Mar, 2020 at 7:23 PM

I posted a review on your site and it is not reflecting. Why?

User reviews are moderated for appropriate content and relevance before they appear on the website. If your review is not showing up, it is most likely to be because of the following reasons:

- It is not relevant to the film, or contains spoilers.
- It contains profanities, or inappropriate/obscene personal remarks.
- It contains remarks on sensitive issues like religion, sexual orientation, etc.
- Excessive use of emojis or repetition of characters is perceived as spam.
