Modified on: Fri, 2 Jul, 2021 at 3:34 PM

We've made it easy for you. You'd first need to search for the event on our website or mobile application. Once you are on the event page you'd be able to locate the duration just below the event title.

Can I cast the stream on my tv?

Modified on: Fri, 2 Jul, 2021 at 3:46 PM

Yes, you can! :D

You'd be able to cast your stream on your television using an Android Phone or Fire Stick. Your television and phone must support this feature.

Just in case you are streaming the event on a Chrome browser, you can also use the Chromecast facility.

If none of the above work, you can simply connect to your television using an HDMI cord.

Will I be able to stream on multiple devices?

Modified on: Fri, 2 Jul, 2021 at 3:47 PM

Nope! You'd be able to stream the event on one device at a time. You would need to login with the same account that was used at the time of purchasing the tickets.

Some events allow you to purchase multiple tickets for online streaming events, in that case the event can be streamed on multiple devices. The details will be visible while you are booking your tickets.
